EXPERIENCE

2016–Present

FIG LEAF SOFTWARE, *Washington D.C.*

Graphic/Web Designer & Front-End Developer

- Created interactive wireframes and website design mockups.
- Designed and built custom Drupal CMS themes and modules for corporate and government clients.
- Consulted with clients on Drupal and front-end development topics including: theming, site building, Section 508 compliance, Sass/CSS organization, and visual design.
- Trained client employees on Drupal and general front-end development issues.

2009–2016

NUMBERSUSA EDUCATION AND RESEARCH, *Arlington, VA*

Graphic Designer

- Designed Drupal CMS themes for major and micro websites.
- Implemented high-fidelity mockups with CSS, HTML, JavaScript/jQuery, and PHP.
- Designed and built E-Mail templates for membership communication and marketing.
- Designed user interface for iOS and Android mobile apps.
- Created print materials for conventions and speaking engagements consistent with brand guidelines.
- Built and maintained styleguide of UI components using the static site generator Jekyll.
- Managed organization's overall branding and media assets.
- Involved in entire creative process from initial concepts to final implementation and testing.

2008–2009

RESTONTECHWIZ, *Reston, VA*

Web Designer (Freelance)

- Designed and implemented new Wordpress themes for local business websites.
